About LMPI Project

- **Focusing on training of specialists in advanced computer technologies to face with cybercrime.**
- **According to Kaspersky, Vietnam is in the list of 10 most attacked countries**
- **Establishing Bachelor's and Master's degrees for the protection of computer systems and networks in three partner countries: Vietnam, Moldova and Kazakhstan**
- **Helping to improve capacity building and training in the field of network and system security.**
- **Envisages training courses that can be accessed online as well**

Project Expected outputs

- **Create a Bachelor's Degree in administration of computer systems and networks & Master's Degree program with a specialization in security of computer systems& networks**
- **In Vietnam, promoting 270 students in the first year of the 2 new degree programs (180 in the Bachelor's program; 90 in the first year of Master).**
- **Specialize 24 teachers in EU (10KZ, 8MD, 6 VN); digitize courses and learning resources.**
- **Create a lifelong training modular system in the same field of education and train 50 professionals per country.**
- **Create a center of excellence in each country, a resource center, supporting the new offer.**
- **Create course content and digital resources that make them accessible for online education.**
